

RUSHIKESH PATIL

Mechanical Engineer, PE

San Diego, CA, Rdp352@nyu.edu (347) 634 6150

CAREER SUMMARY

- Licensed Mechanical Engineer (PE) with 6+ years of experience in designing of Mechanical and Plumbing systems for labs, healthcare, industrial, residential, and government projects.
- Proficient in using REVIT & AutoCAD. Deep understanding of Revit parameters, element categories, and advanced workflows like automated pipe and duct sizing.
- Knowledgeable in Mechanical Codes, Plumbing codes, ASHRAE standards and ASPE Guidelines.
- Strong foundation in Psychrometric charts, Fan/pump curves, Thermodynamics, Fluid Mechanics.
- Extremely motivated team player, consistently improving processes and taking full responsibility for work.

PROFESSIONAL EXPERIENCE

Project Manager | SC Engineers, CA

MARCH 2021 – PRESENT

- Types of projects – **Laboratories, Healthcare, Industrial and Various Government Design Build Projects.**
- Managed multiple projects simultaneously for mechanical and plumbing design, serving as the PM for the project.
- Trained Junior Engineers in design and calculations and provided clear PDF markups to advance the design.
- Independently collaborated with clients or contractors to deliver effective design solution for complex challenges.

Project Engineer

- Took initiative to create Macro enabled Excel for standardizing calculations which led to 50% reduction in design time.
- Conducted Life Cycle Cost Analysis to present client options and participated in real-time design coordination meetings with clients, government, and consultants.
- Worked on 4 new construction 55 - 60 bed hospitals from SD to IFC with Chilled water, hot water and CAV systems.
- Worked on laboratory with 60 VAV fume hoods to design a multizone system with venturi valves and DOAS.

Senior Design Engineer

- Performed calculations and used REVIT to complete design of various mechanical systems.
- Designed specialty plumbing systems such as RO/DI water systems, med gas systems, lab gases systems, and compressed air systems. Worked on renovation projects in existing buildings with phasing and temp systems.

Mechanical Engineer | AMA Consulting Engineers, NY

OCTOBER 2019 – MARCH 2021

- Types of projects – **Restaurants, Office spaces and Retail fitouts.**
- Worked on projects with hydronic systems from inception to complete construction documents & CA. Edited book/CAD specifications; collaborated with electrical team to produce a well-coordinated set.

Mechanical Engineer | GEA Consulting Engineers, NY

JULY 2018 – OCTOBER 2019

- Types of projects – **High rise Residential, Restaurants, church.**
- Coordinated with architect and other in-house trades. Developed deep understanding of NYC Mechanical code while learning working of VRF and hydronic systems.
- Meticulously reviewing Shop Drawings, Submittals and responding to RFIs.

EDUCATION

Masters in Mechanical Engineering | New York University

MAY 2018 | GPA – 3.63

- Courses: Heat transfer for HVAC, Design of HVAC, Thermal Engineering, Fluid mechanics for HVAC, Linear control systems.

Bachelors in Mechanical Engineering | University of Pune

MAY 2016 | GPA – 3.50

- Courses: Machine design, Thermodynamics, Strength of Materials, Heat transfer, Robotics, Advanced CAD.

TECHNICAL SKILLS

REVIT | AUTOCAD | ASHRAE | ASPE | NFPA | ICC | TITLE 24 | HCAI | ENERGY PRO | OFFICE VBA | OFFICE APPS | IES VE | BLUEBEAM | ACC | PYTHON | MASTERSPECS | MICROSOFT PROJECT
